PROFILE

9th-semester Computer Engineering student with a strong focus on **data engineering and distributed systems**. Experienced in **automating workflows, designing process improvements, and executing large-scale data analysis**. Demonstrated ability to thrive in collaborative, fast-paced environments while maintaining a positive attitude and **strong problem-solving skills**. Eager to bring my hands-on technical background to an innovative team, contributing to impactful data solutions and continuous improvement.

EDUCATION

NATIONAL AUTONOMOUS UNIVERSITY OF MEXICO | FACULTY OF ENGINEERING | COMPUTER ENGINEERING | EXPECTED JULY, 2027

EXPERIENCE

DiDi FOOD | MEXICO CITY, MEXICO

DATA & PROCESS OPTIMIZATION LEAD INTERN | OCTOBER 2025 – PRESENT

- Analyzed, designed, and implemented **end-to-end process improvements** to enhance operational efficiency and campaign performance across SME and CKA Acq and Eng initiatives as well as customer-facing campaigns.
- Built **automated dashboards and complex queries** to drive real-time, data-driven decision-making.
- Created **ETL workflows** to seamlessly integrate commercial requirements into internal systems.
- Tracked and **analyzed the impact of process updates** to ensure strict alignment with business KPIs.

DATA & OPERATIONS EXECUTION INTERN | JUNE 2025 – OCTOBER 2025

- Executed and supported the SME Engagement Commercial Offering, ensuring the accurate implementation of promotional campaigns within the platform.
- **Automated recurring operational workflows** to improve execution consistency and reduce manual workload.
- **Optimized complex SQL queries for large-scale sales and marketing datasets**, accelerating reporting and supporting daily operational execution.
- Identified data inconsistencies and **troubleshooted internal data systems** to maintain operational continuity.

PROJECTS

GATTOMATIC: HIGH-IMPACT AUTOMATION FRAMEWORK | WINNER OF THE INAUGURAL DiDi iYOUTH

DEVELOPMENT PROGRAM (HIGHLIGHTED PROJECT)

Reduced campaign execution time from 76 to 35 hours and ensured system stability during peak hours—which drive 60% of total order volumes—by engineering a **highly scalable software development and API-driven automation framework** for DiDi's largest-scale promotions.

PROJECTS & CODE PORTFOLIO

SKILLS

LANGUAGES SPANISH *NATIVE SPEAKER* | ENGLISH *HIGHLY PROFICIENT*

PROGRAMMING LANGUAGES C | PYTHON | SQL

OTHER RELEVANT TOOLS DOCKER | MATLAB | JUPYTER NOTEBOOK | GIT | POWER BI | EXCEL | REST API

CERTIFICATES

USING PYTHON TO ACCESS WEB DATA | UNIVERSITY OF MICHIGAN | COURSERA

INTRODUCTION TO DATA SCIENCE IN PYTHON | UNIVERSITY OF MICHIGAN | COURSERA

SCRUM FUNDAMENTALS CERTIFIED | SCRUMSTUDY
